<EXPERIENCE />

Brokers Comparison / Full-Stack developer

Dathuis

10/2017 - 03/2018 Amsterdam

https://www.dathuis.nl/

DatHuis was established to provide insights into the quality and services of brokers.

- I did a lot of React and Redux along with NodeJS and MongoDB as a back-end. And got really experienced in them.
- I removed Bootstrap from the whole website, and rebuild it with pure CSS!

Student Administration System / Full-Stack developer

HackYourFuture

03/2016 - 07/2016

http://hyfer.hackyourfuture.net/

- After finishing a full-stack development course with HYF, I build Hyfer as a graduation project. I worked on it with one fellow student and we had two mentors.
- It's been built with AngularJS, NodeJS and MySQL.

Applications+Interfaces development / Front-End developer

Crossmarx

08/2016 - 10/2016

https://www.crossmarx.nl/

Crossmarx enables its customers to grow their businesses.

- There I had an internship and worked on Css+Html and a little bit of Python in the back-end.
