Brokers Comparison / Full-Stack developer

Dathuis

10/2017 - 03/2018 Amsterdam
https://www.dathuis.nl/

DatHuis was established to provide insights into the quality and services of brokers.

- I mastered React&Redux during the period I spent at Dathuis.
- I was responsible for the main website of Dathuis. Built new features and kept it friendly and useful.
- At Dathuis, we used the newest tech (i.e. React, NodeJS and MongoDB)
- I removed Bootstrap from the whole website and rebuild it with pure CSS!!

Applications + Interfaces development / Front-End developer

Crossmarx

08/2016 - 11/2016 Amsterdam

- I did an internship and worked on Css+Html and a little bit of Java.
- I worked on creating the interface of https://halloijburg.nl/
- I've learned the concept of OOP from the Java Guru https://www.crossmarx.nl/person/6/matthijs-lambooy.

Learning Platform of HYF / Full-Stack developer

HackYourFuture

03/2016 - 07/2016
https://hyfer.herokuapp.com/about

- After finishing a full-stack development course with HYF, I built Hyfer, with two other colleagues, as a graduation project.
- It's useful for students to arrange their time, and for teachers to create or modify different modules.
