Amplify voices in crisis situations / full-stack developer

Upinion

11/2018 - 06/2019 Amsterdam

Upinion can help you reach your target audience for qualitative, quantitative or hybrid research.

- At Upinion I did full-stack development. With a fast-growing team, where we used scrum technologies as a communication medium.
- Front-end: Applications that were built with React, redux(-saga) and are fully testable.
- Back-end: Mainly NodeJS. Automated micro-services(docker).
- I worked extensively on building chatbots for several platforms(Facebook, sms and WhatsApp).

Brokers Comparison /full-stack developer

Dathuis

10/2017 - 03/2018 Amsterdam

Dathuis was established to provide insights into the quality and services of brokers.

- I mastered React&Redux during the period I spent at Dathuis.
- I was responsible for the main website of Dathuis. Built new features and kept it user friendly and useful.
- At Dathuis, we used the newest tech (i.e. React, NodeJS and MongoDB). I removed Bootstrap from the whole website and rebuild it with pure CSS!!

Applications + Interfaces development / front-end developer

Crossmarx

08/2016 - 11/2016 Amsterdam

- I did an internship and worked on Css&Html and a little bit of Java.
- I worked on creating the interface of https://halloijburg.nl/
- I've learned the concept of OOP from the Java Guru https://www.crossmarx.nl/person/6/matthijs-lambooy.

Students management system / full-stack developer

[HackYourFuture](#)

📅 03/2016 - 07/2016 📍 Amsterdam

<https://hyfer.herokuapp.com/about>

- After finishing a full-stack development course with HYF, I built Hyfer, with two other colleagues, as a graduation project.
- It's useful for students to arrange their time, and for teachers to create or modify different modules.
